

MSTAT™ Manual Thermostat

Overview

The Warmup MSTAT is a manual thermostat suitable for use with electric underfloor, hydronic underfloor and central heating systems. It has a clean look with an easy to use temperature dial.

Simply set your desired temperature to switch the heating on as and when you need it.

Features

- Concealed heating indicator
- Adjustable floor temperature limit
- Floor and air sensors ensure precise control
- Sensors can be set as; Air, floor or Air with a floor limit
- Automatically enters 'safe mode' if sensor failure detected
- CE marked for ultimate peace of mind
- 3yr Warranty
